

**WHEN MUSIC IS EXPRESSED WITH  
MAGIC IN ITS TRUEST  
ESSENCE ...**

**Musicfor** is an international association that was founded with the aim to promote musical activities throughout the world through the organization of concerts, conferences, festivals, production companies, publishing and educational activities and research. It is the natural consequence of a way of life that combines musicians and experienced professionals in various fields. Our headquarters are in Switzerland (Versoix), Italy (Rome and Turin), UK (London) and France (Sallanches).

Part of our activity is also addressed to the humanitarian sector focusing primarily on the scope of music. We help to finance the construction of music schools, the purchase of musical instruments for the orchestra and scholarships for the best students with special attention to those geographical areas less favored (currently Mozambique, Haiti, Panama, Angola, South Africa) .

The funds are collected through donations, the organization of artistic events, the support of our partners and the activities of our two orchestras: the **Mission Symphony Orchestra** (MSO) and the **Mission Chamber Orchestra** (MCO).

Musicfor projects have the support of many national and international institutions such as the Italian Ministry of Foreign Affairs (MAE), the United States Congress and the Angolan government.

Enriching our spirit through art transform the individual, contributing to its improvement and that of the social context that surrounds it. This idea inspires all our activities !
